FEE-IN-LIEU MITIGATION IS HEREBY GRANTED TO THE OWNER, SUBJECT TO THE FOLLOWING CONDITIONS:

## CONDITIONS FOR FEE-IN-LIEU MITIGATION PROGRAM FROM CDID #1 OF COWLITZ COUNTY

For landowners and developers who are not eligible to purchase public regional detention capacity to meet flow control requirements, CDID#1 offers a Fee-In-Lieu Program to accept mitigation payments for the purpose of constructing capital improvements to CDID#1 facilities in accordance with RCW 82.02.020. Improvements are intended to reduce maintenance, improve function, enhance reliability or provide other measurable benefit to CDID#1. This option is offered on a case-by-case basis, and some applicants may not be eligible if a suitable project cannot be identified and programmed within the statutory time allowed.

### General Conditions

1. Applicant is ineligible to purchase public regional detention due to conditions outside their control including but not limited to the location of the project relative to primary drainages, limitations in the CDID#1 conveyance system and/or insufficient remaining available regional detention capacity.
2. Applicant agrees to pay a one-time mitigation payment to CDID #1 in lieu of providing onsite detention for stormwater runoff from real property described above. Mitigation payments shall be comparable to the equivalent cost of regional detention capacity at the time of application.
3. Applicant will execute a separate Agreement which shall be filed by the Applicant in the office of the Stormwater Plans Examiner of the City of Longview, Washington. A copy of the executed contract will also be recorded in the office of the County Auditor of Cowlitz County, Washington. All recording fees shall be the responsibility of the Applicant.
4. Any funds not expended within five (5) years from the date of the Agreement shall be refunded to the property owner of record at the time of refund.
5. Applicant maintains all responsibility to construct and maintain all required pipes, canals, waterways, ditches, culverts, pipes, stormwater collection facilities, filters, oil-water separators, any stormwater treatment facilities required by the State of Washington and/or the City of Longview, and any other facilities necessary or advisable to collect and transport stormwater runoff into the stormwater collection system of CDID #1.
6. Discharges into the stormwater collection system of CDID #1 any solid material or any liquids not constituting stormwater runoff are strictly prohibited.
7. Fee-in-lieu mitigation is a qualifying option which meets the City of Longview's requirement to provide flow control where site conditions prohibit attenuation of the post-developed discharge rate to the pre-developed rate for the 25-year, 24-hour storm event.
